

If SINclair Broadcasting airs an anti-Kerry documentary days before the election, they should also air an anti-Bush documentary.

To air an anti-Kerry documentary only is the most blatant example of propaganda, and is decidedly NOT the sort of thing one would expect in the United States.

sinclair uses the public airwaves free of charge, and by law is supposed to serve the public interest. I do not see how showing an anti-Kerry documentary serves the public interest--unless equal time is given to show an anti-Bush documentary.

Thank you.
